

Advertising rates for 2016

Mailing List:

Our mailing list is composed of (over 11,000) nanotechnology professionals, researchers, company directors, CEOs, regulators and other decision makers in the area of nanotechnology. The newsletter is posted once a month and is available for free to subscribe. This is our way of contributing to the information flow in the nanotechnology community.

We would be happy to add your event to our list of events and would ask you to reciprocate by adding BREC Solutions logo and link to your event page. We would like to offer a banner advertising on the side of the newsletter on a commercial basis.
